

IRON HORSE

Iron Horse has established themselves as one of Minnesota's most rockin' five-piece high energy modern country acts. Iron Horse arrived on the scene in 2007 and since then the band has gained a loyal league of die hard fans and continues to make waves in the Minnesota music industry. They currently have an active mailing list over 2000+.

Iron Horse consists of some of the areas most talented and gifted musicians. From the "dynamic front-man" and lead singer, John Tragiai aka "Johnny Tee" and "Powerhouse" co-lead vocalist, "Adena Brumer", to the "Awe Inspiring" guitar wizardry of "Mike May", held together by the "smooth, energetic" driving bass lines of "Mike White", driven by the "Heart Stopping" drum beats delivered by Russ "Binny" Binstock. The final delivery is a smooth energetic high energy show that delights those of all ages.

The chemistry and charisma of the group is undeniable and shows in every aspect of their performance. Featuring male and female vocals which cover solo and spine tingling duets, three to four part harmonies and a solid rhythm section, Iron Horse offers a wide variety of music. Iron Horse also adds to their show by delivering a phenomenal light show and quality sound production, which brings each song to life.

Iron Horse has played various venues, festivals, weddings and rodeos across the state of Minnesota and ventured into Wisconsin as well. The group delights in their fans and works to improve their show with new material; both cover songs and their own originals. The band currently covers songs in several genres' including Country, Southern Rock and Classic Rock with their heart and soul centered on Rockin' Country!

They are currently booking shows for 2010 and would love to be invited to play at your event. Please visit their website to hear samples of their music. They have also included a sample set list for your viewing.
